Goodman developed a 3,870 sqm warehouse for Kuehne + Nagel, a leading global provider of innovative and fully integrated supply chain solutions.

Kuehne + Nagel decided on Goodman because, as a reliable partner, it was able to deliver warehouse space in a short time that fully met their expectations.

The new warehouse will be used by Kuehne + Nagel for the local distribution of their clients' products; and due to the strategic location, to further develop its own business.

The location of Goodman Pomeranian Logistics Centre, next to the DCT Gdańsk container terminal, provides a unique opportunity for sea, rail and road transportation. Due to the modernisation and constant development of the road infrastructure, the warehouse also has excellent access to the Tri-City area and the A1 motorway.
